

## 3-IN-1

AMS 3-IN-1

The global standard in  
security hardware solutions

# 3-IN-1

## AMS 3-IN-1

**Only product to include all High Security requirements for high end security applications whilst saving time and money on installation + adjustability.**

Completely unique to the **AMS 3 in 1**, all security equipment had to be installed separately, the AMS 3 in 1 allows the door frame pre cut to suit which will save up to 4 hours to install.

- Fully adjustable unit - Micro switch box + Electric strike + Balanced Reed Switch can be adjusted, overcome any issues with doors warping/door seals or movement.
- Works in conjunction with a square bolt deadlock + quality commercial grade latch type mortice lock.
- The 2 in 1 unit saves time and money on installation costs.
- Reversible, product not handed, knock out option to reverse electric strike.
- 3 in 1 includes a MicroSwitch box + Electric strike + Balance Reed Switch.
- 3 in 1 has a balanced reed switch - within/incorporated unit itself.
