

All users accessing the ISACA's Cybersecurity Nexus (CSX) Training Platform must have a free ISACA account. If you don't already have an ISACA account, follow the steps below.

1. Visit <https://nexus.isaca.org>.
2. Click *Create ISACA Account* and complete the form.

The screenshot shows the CSX Training Platform login page. On the left, the header reads "Cybersecurity Nexus™ (CSX) Training Platform" with a sub-header "A performance-based, live lab environment, where anyone can obtain cutting edge cybersecurity training." Below this are two buttons: "Learn More" and "Visit Store". On the right, there is a login form with fields for "ISACA Username" and "ISACA Password", a green "Sign In" button, and links for "Forgot password and/or username?" and "Create ISACA Account". The "Create ISACA Account" link is highlighted with an orange rectangle.

3. After creating your ISACA account, log in at <https://nexus.isaca.org> using your *ISACA Username* and *ISACA Password*.

This screenshot is identical to the previous one, showing the CSX Training Platform login page. However, in this version, the "ISACA Username" and "ISACA Password" input fields are highlighted with orange rectangles, indicating where the user should enter their credentials.

If you have questions regarding the account set-up process, please contact the Customer Experience Center at <https://support.isaca.org>.
