# SABER

SITUATIONAL AWARENESS, BEHAVIOUR EVALUATION & RESPONSE

**PRAESIDIUM**  
RISK AND RESILIENCE

**BASELINE**  
BEHAVIOUR AND CONSULTANCY

**"NOT ALL HOSTILE PEOPLE APPEAR STRESSED AND NOT ALL  
STRESSED PEOPLE ARE HOSTILE"**

## **INTRODUCING SABER**

Designed by Specialist Australian Law Enforcement personnel with experience in human behaviour detection, body language identification and hostile prediction, SABER Behaviour Detection Training Programs are designed to provide your staff with the confidence and capability to use behaviour detection and situational awareness to detect, deter and deny criminality in or around your workplace and to evaluate any associated risk.

Whether it's protecting your customers and staff from harm, reducing product loss, or protecting the reputation of your organisation, SABER Training will enhance your security posture and help reduce organisational risk, whether it be from terrorism, theft or anti-social behaviour.

### **SABER IS DESIGNED FOR ANYONE WORKING IN ANY OF THE FOLLOWING AREAS AND MORE**

- Venues and Tourist Attractions
- Sporting Events
- Restaurants
- Retail
- Hospitals
- Transport Networks and Hubs
- Shopping Centres
- Airports
- Casino and Licensed premises
- Security
- Public Places

### **LEVEL 1 – BEHAVIOURAL AWARENESS (COMMENCING MAY 2021)**

A one-day classroom based introductory course into behaviour detection. This program provides clear principles to enhance situational awareness, allowing staff to identify suspicious items or people. This is achieved through a deeper understanding of how people behave when under stress and why. The Program introduces attendees to the behavioural cues people exhibit when they have "guilty knowledge" whilst ensuring they are aware of the effects of personal bias and stereotyping. The Level 1 Program provides simple techniques to target harden your environment and processes to effectively resolve or report on suspicions and concerns.

With 3 progressive levels of training, the SABER programs promote utilisation of all staff to become part of your layered security presence. Whether it's front of house service staff, cleaners, retail workers, or your security personnel, this training teaches participants to be more alert and aware of what is happening around them, identifying anyone or anything that could be considered a threat, and it provides the proper tools to respond.

Whether you are deterring shoplifters, terrorists or any other individuals who may come to your site for malicious reasons, it requires a systematic approach and the SABER program can help add an additional layer to your protective security.
