Specifications & Standards
Practical Completion & Compliance

HOST & EXPERT PANEL

DR KEVIN FOSTER

Engineers Australia Representative on Standards Australia Committee MB-025 Societal Security and Resilience. Joint Drafting Leader, Standards Australia Handbook 188 - Physical Protective Security Treatment for Buildings Chairman, ASIS International (WA).

MARK JARRATT CPP

Mark served as an Australian Customs Officer in Canberra and Sydney for 21.5 years, including as Chief of Security (agency security adviser). He is Board Certified in Security Management, and the only Australian Government endorsed SCEC (Security Construction and Equipment Committee) security zone consultant with agency security adviser experience. Mark is former Vice-President, ASIS International Australia Region and is currently Vice-Chairman of ACT Chapter.

RACHELL DELUCA

Rachell leads the Melbourne Security & Risk team and brings 22 years' industry experience to her role. She is dedicated to identifying holistic security solutions and has delivered projects both within Australia, and Internationally. Her experience covers a range of industry sectors and includes security risk management, strategy and policy development, management consulting, passive and active systems design and project management.

HOST & MODERATOR

CHRIS CUBBAGE CPP

With 30 years experience, Chris is a certified security professional with a 15 years policing background. Chris is co-author of Corporate Security in the Asia Pacific Region, Security Risk Management in Corporate Governance and Executive Editor for MySecurity Media, including the MySecurity Marketplace.

DR DAVID BROOKS

David (Dave) Brooks is the Associate Professor in Security Science at Edith Cowan University (ECU). Dave commenced his career in the Royal Air Force electronic Air Defence, moving into the Electronic Security sector and later, Security Consultancy. During Dave's industrial security period, he has worked within Defence, Critical Infrastructure, Resources and Corrections. David has strong industry engagement with active participation with ASIS International, the Australian security industry and with a private consultancy. He has published widely, with over 18 International Journal articles, seven book chapters and four books.

FRAZER HOLMES

Frazer has over 20 years' experience in the security industry, and specialises in providing security solutions for Critical Infrastructure, Commercial, Government and Defence agencies including the specialist design and planning advice, within the context of an agencies specific risk environment.

RICHARD KATHAGE

Richard is a project manager, BCA consultant and fire engineer on projects across Australia. He is interested in finding optimal solutions for building designs using an understanding of fire safety engineering and the Building Code of Australia. Richard is Western Australia Manager for Warringtonfire and has also worked in the ACT and NSW, providing him with comprehensive knowledge of regulatory matters across these states. He has worked on dwellings, residential buildings, hotels, offices, car parks, shopping centres, schools, hospitals and aged care facilities, and has an interest in heritage buildings and resolving fire engineering challenges for existing buildings.

SARA TRIMBOLI

Sara Trimboli is a SCEC Endorsed Security Zone Consultant with over 17 years in the security industry. She currently specialises in the provision of physical security advice to Defence and Federal Government clients. She is well versed with the application of current industry security standards and security policies, such as the Australian Government Protective Security Policy Framework (PSPF) and the Australian Defence Security Principles Framework (DSPF).

SESSION FORMAT & PLATFORM

FORMAT

60 - 90 minute Webinar

PLATFORM & PROTOCOLS

Recorded Live on GoToWebinar Platform
MySecurityTV - Youtube Stream

Moderated Audience Q&A Screen Sharing Available

Virtual Panel and Presenter Format

Each session introduction includes a 5 – 10 minute introduction and update on weekly news, trends & reports. Sponsor and Community partner spots may also be inserted into the agenda. Each episode tends to have 3 or more guests who each have the opportunity to deliver a 5 – 10 minute presentation on the Episode's nominated domain theme. Following the presentations we facilitate a Panel Q&A session with the Hosts and Audience.
