# SHAREPASS ONE

## FOR ENTERPRISES

"SharePass ONE", is our enterprise version, specifically designed to meet the unique needs of businesses. It offers exclusive features and benefits, including:

### FILE SHARING

Secure file sharing allows enterprises to share sensitive files within an encrypted environment.

### ADMIN PORTAL

Administrators can efficiently monitor and maintain data security across the organization.

### SECURITY KEYS

"SharePass ONE" supports security keys, providing an additional layer of security.

### SINGLE SIGN-ON

Enabling enterprises to streamline access management and enhance security.

### CUSTOM DOMAIN

With SharePass ONE, enterprises can use their own domain.

### WHITE LABELLING

Allow businesses to customize the user interface with their own branding.

### PRIVATE INSTANCES

Choose private, dedicated instances hosted in your preferred location.

# WHAT IS SHAREPASS

In today's digital world, protecting personal and confidential data is vital. SharePass tools simplify sharing sensitive information, ensuring users' highest privacy and security.

# OUR TECHNOLOGY

## 01 TIME CONTROLLED SECRETS

Personalized access to sensitive data with scheduled releases and time-limited availability.

## 02 MOBILE PRIVACY SOLUTION

The AI-powered SharePass Keyboard secures data on any app, eliminating digital footprints.

## 03 EFFORTLESS FILE SHARING

Send files hassle-free. Our platform guarantees absolute confidentiality and vault-level control for each file.

## 04 SEAMLESS INTEGRATION

Convenient integration tools to enhance your data-sharing capabilities within any existing communication app.

# OUR CLIENTS

Our customers are at the heart of everything we do at SharePass.

**Schur®**

Schur is an end-to-end supplier of packaging solutions.
After 90 days, Schur has reduced the digital footprint of its sensitive information by 30%.

**SILENT BREACH**

Silent Breach is a cybersecurity consulting firm. They have improved their communication by establishing a secure channel to send and receive client sensitive information.

**arcare**

Arcare is Australia's leading Aged care provider. Arcare is using SharePass to improve their confidential information sharing process.
